**Subject:** S. Weber Expiration and Extension

Hi,

Just as an FYI- I see on the official award that the grant ends 4/30/2016.

Sisay, when you get a chance, if you can send me a quick email simply stating that the program is wanting to extend the grant for 90 days in order to provide more time to determine whether or not to keep the grant open or close and re-advertise the TAG (or something along those line... really brief is all I need. Just something to put in the file stating that the program approves of the time extension) then I can go ahead and submit that Change Request and process the extension.

Thanks,

Lindsay Seeger
